

High frequency + ATS design. Distortion: ̣ 3%, Efficiency: ̣ 85%, Regulation: ̣ 2%, Frequency: 50/60HZ ̣ 1% Output voltage adjustable, Green power function, Temperature control Fan, Input & Output isolated Input low & high voltage protection. Input & Output short circuit protection, Low battery alarm & shut-down, Overload protection, Temperature protection: 50̣ 5, Fast Action AC Synchronised Transfer Switch (UPS Mode)
